

SIGNATURE
KITCHEN SUITE

Price List

True to food™

**Signature Kitchen Suite is
focusing on a new generation
of modern cooks, highlighting
their passion for food and their
innovative spirit.**

By offering superior quality solutions and the most advanced technology,
we provide the possibility to cook at your best and with the utmost
flexibility, respecting food in all its forms.

We celebrate performance, design and precision, a mix that sincerely and
genuinely honours all the players in the supply chain: the people who grow
the food, those who prepare it and those who are lucky enough to enjoy it.

Respecting food down to its essence
is our manifesto.

True to food™

All good food has its own unique history, starting from when it is grown, and that history comes to our table. The land and the sea, plants and animals, the farmer, the pasta maker, the fisherman, the baker: each has their own task and deserves the greatest respect. We also believe that every single step that brings food to your table deserves the same consideration. Signature Kitchen Suite is proud to participate in this journey by offering built-in kitchen appliances that are versatile and technologically advanced.

This is our manifesto, our mantra. This is why, when we designed our collection, we started with food preservation. Our cooling, freezing and wine cellar modules are designed to create infinite combinations of cold, based on your needs.

All modules have stainless steel interiors for optimal storage and hygiene. Adjustable shelves with wireless, induction activated True View® soft LED lighting; water and ice dispensers. All products panel and Wi-Fi ready, allowing for connection to other smart home appliances through customised home design platforms. A unique detail is the French Door, with a drawer featuring adjustable temperature depending on your needs.

But the journey you begin when you purchase a Signature Kitchen Suite appliance does not end with installation. With exclusive services, such as Priority Customer Service or the Chef at home service with personalised menus, Signature Kitchen Suite will continue to demonstrate and share its deep respect for food and its history with you.

Design

The more discreet, the more interesting. Beauty becomes more unique as it slowly reveals itself. Your spaces become creative, and every moment of your day is filled with a new awareness. Your kitchen is transformed into a true artist's studio, enriched by a new form of aesthetics: in the beauty of the space and of those who live in it.

Every single detail is thought out, designed and built to please, not only visually, but also to be functional in every detail. For example, the handleless ovens and with soft open system allow you to open the door even when your hands are full and, at the same time, thanks again to its special clean aesthetic, maintain the clean lines of your kitchen design.

The wine cellar shelves, in natural beech wood, are solid to the touch, giving stability to the sliding shelf and also acting as a natural regulator of internal temperature and humidity.

The flexinduction hob allows you to select, activate and configure the cooking zones based on the recipes you want to prepare and the size of your pots and pans. At the same time, they enhance the cleanliness and essential nature of the work space, which is not only beautiful, but useful for better organisation while preparing and enjoying dishes.

Smart

Intelligent, intuitive, simple, effective, connected. Signature Kitchen Suite appliances are smart in every sense of the word because they are designed for people who love every phase of cooking, starting with choosing and storing food.

When you are smart, you are smart right down to your DNA. This is why our devices show their intelligence in different ways. All Signature Kitchen Suite products are Wi-Fi ready, with the possibility of being connected to wider control systems throughout the home. Thanks to the Smart Diagnosis™ System, you can simply bring your mobile device close to the oven and activate the function. The appliance will emit a sequence of sounds that will be recognised and translated by the Signature Kitchen Suite App in case of product malfunctions. You can then choose whether to send the report directly to Customer Service or keep track of it to report the anomaly code to your trusted service contact.

The refrigerator and freezer shelves are equipped with True View® induction LED lighting, which means no physical connections. This allows you to move the shelves from one level to another with great flexibility, automatically reactivating the lighting after each move.

The cooking functions of the ovens are also smart and include the use of steam, hot air and microwave in a single appliance.

You are smart, you want to live life simply and fluidly, connected to your world and to what surrounds you.

Column Refrigerators

All our refrigeration units are built-in, flexible and panel ready, with stainless steel doors that can be purchased separately.

Column refrigerators are available in 24" or 30" widths, with water dispenser built into the side wall. The interiors are in stainless steel, glass and ABS for the removable inserts.

REFRIGERATION

Create your column

Characterised by an exclusive modular structure, columns for incorporated fresh food, freezer, lower freezer and wine storage, available in various widths from 457 to 914 mm.

Step 1

Choose your unit: refrigerator column, freezer column, French Door refrigerator or wine refrigerator column.

Step 2

Choose your panel: stainless steel for an extraordinary look or custom panel for a perfect integration with the rest of your cabinet. OUR PANEL KITS INCLUDE THE HANDLE

Step 3

Choose a brushed aluminium handle or use your handle on a custom panel. Add an optional frame kit if necessary.

Undertop Products

The Signature Kitchen Suite undertop wine cellar was designed paying the utmost attention to storage performance.

Accurately studied to imitate the ideal environment of wine caves thanks to the Wine Cave Technology™, its exclusive design reduces temperature fluctuations and vibration to a minimum. Designed to reduce environmental impact with a coolant free from HFC / HCFC and employing recycled materials.

Cooking

Your kitchen is the room where you bring your emotions to life. With our cooking appliances, you can give voice to who you really are.

We offer a complete suite of cooking appliances: ovens, induction hobs, coffee makers. All our appliances are set up for WI-FI connection and to communicate with the APP that is full of suggestions, recipes and control functions. Your passion for food continues in your kitchen; here the care you have placed in the choice of ingredients is perfected.

Cooking

Ovens and warming drawer

The clean, minimalist, handleless design of our ovens will allow you to further enhance the beauty and functionality of your kitchen.

Through heat, you can enhance the taste of the freshest ingredients to their fullest potential, using the most useful functions in making your recipes to perfection.

WASHING

Dishwasher

SKSDW2402P - Kr 23 700

Quadwash Dishwasher™

EAN: 8806098608034

- Energy Efficiency Class: A+++*
- Place settings: 14
- Inverter Direct Drive Motor
- Wi-Fi-Enabled for SmartThinQ® Control with iOS/Android App
- TrueSteam™
- QuadWash™
- Programmes: (10) Auto, deep Clean, Delicate, Turbo, Refresh, Eco, Machine Clean, Rinse, Express, Download cycle
- Options: (8) Dual zone, Half load, Energy saver, Steam, High temp, Extra Dry, Control Lock, Delayed Start 1 - 12
- Aqua-Stop
- Drying Type: Condensing / AOD
- Height adjustable 3rd rack
- Sound Level: 44 dBA
- Eco Programme sound level: 40 dBA

Direct Drive Motor: strong and silent.

Maximum power, no noise. The Direct Drive motor is so silent that you would never believe how powerful it is. There is no need to open the door to check whether the wash cycle has ended. The light lets you know at a glance if the dishwasher is in use. The door opens slightly automatically upon completion of the wash, to facilitate the drying process.

17 washing options

Automatic, Deep clean, Delicate, Refresh, Eco, Turbo, Extra Dry, Custom, Machine cleaning, Rinse, Express, DualZone, Half Load, Energy Saver, Steam, High Temp, Delay Start: for every load and need there is a perfect programme. At the end of the wash, thanks to the Auto Open dry function, the door opens automatically to perfect the drying phase, especially for plastic.

PowerSteam Technology.

This option adds the use of steam during the cycle, in order to improve washing. Generated externally to the tank, it is possible to combine steam with the Auto, Deep Clean, Delicate, Refresh, Eco and Turbo programmes.

Washing

Dishwasher Sliding hinge

Thanks to PowerSteam Technology, it is possible to use the natural power of steam to clean deeply and without pre-rinsing.

With QuadWash™ technology, the moving arms spray jets of water in four different directions, for a deeper and more thorough wash.

True to Service

When you respect food for the way it is grown, curated, chosen and brought home, you enter a world made of incredible stories, people who dedicated or changed their lives or to follow their passion and inspiration.

Our True to Food™ services are designed to give you the chance to enjoy unique experiences, even from the comfort of your own home, discovering the values connected to food, from selection through to preparation, to share with whomever you want.

For full details on the services available and to choose the one that best suits you, visit our site www.signaturekitchensuite.it

Access our Services page

TRUE TO FOOD

Service

Warranty

All Signature Kitchen Suite appliances are covered by the conventional warranty on their products in the event that they have technical problems or failures.

Smart Check

Signature Kitchen Suite supports you to properly operate and maintain your appliances.

Priority Service

We guarantee the priority response from one of our specialised technicians, who will intervene with the utmost promptness, within 24 hours, meeting your needs and urgencies, during the weekdays.

Tutorials

Do you need some help understanding how your appliances work? Contact us for personalised advice by phone or directly in your home.

Experiences

Personal Food Shopper

A chef will go shopping with you and help you identify and select the food that best suits your tastes and recipes.

Full Wine Cellar and sommelier

A sommelier will help you fill your new Signature Kitchen Suite cellar according to your budget with the wines most suitable for your tastes, illustrating their characteristics and setting the correct storage and serving temperatures.

Kitchen Organizer

Improve the organisation of your kitchen with the help of a professional to identify the essential tools and the ingredients to always have available and to find the best place for them in order to make everything simpler and more efficient.

True to Food box

Receive your box with selected true to food products and follow the recipe of our Food director in full True to food style.

@Home Masterclass

A private lesson at home in your Signature kitchen. Choose the theme and get ready to welcome a Signature chef for an exclusive experience.

Free evening course

Voucher for a calendar course at the Signature Food Academy to learn new techniques and recipes and become familiar with the Signature Kitchen Suite products.

The prices stated are recommended and not binding. VAT, transport and WEEE eco-contribution excluded. Models are subject to change without notice. Signature Kitchen Suite reserves the right to make changes deemed necessary to improve production at any time. Technical data are not binding. Please refer only to the dimensioned drawings for each individual product. We recommend supplementing this information with the installation and assembly manuals supplied with the appliances. Power consumption data should be understood as a recommendation. We would also like to remind you that all electrical, plumbing and gas connections must be carried out "in a professional manner" by qualified personnel, in accordance with current regulations. For electrical appliances, in order to ensure their full functionality, the system in the home must be sized according to the electrical power consumption of the appliances installed and must be in line with current safety guidelines. Please note that some electrical equipment is supplied without electrical power cables, as their installation and sizing is the responsibility of the electrician. If you have any questions, we recommend that you refer to the technical data and drawings available at www.signaturekitchensuite.com/it.
